

G. S raises his objection...

If executives are allowed to fill up the form for membership subscription from salary without verification of their signature by their controlling Executive, then why the same will be continued for non executive.

According to BSNL HQ, the clause/requirement of signature of controlling officer on the option form has been deleted.

The two recognized union are in fear. They will not ask the management to withdraw the same clause from the option form of non executive because if one member leaves the existing union, it will be from their side.

Therefore , other registered union should have to raise their voice.

G.S will write to Director (HR) for equality in this regard.
